

Autumn Love Stories

This beautiful made to measure wedding dress is new for autumn country brides from British tweed fashion designers, **Timothy Foxx**.

The **Timothy Foxx Viola Tweed Wedding Dress** is romantically styled along classical lines in a beautiful Scottish tweed with a pretty sweetheart neckline with delicate satin straps. The bodice features a parade of silk covered buttons to the back and is overlaid with a beautiful vintage inspired lace. Finished with an open overskirt, this elegant design detail falls away to make your train at the back.

Brides-to-be can choose from a variety of customisation options including tweed colours, length and lace choice. The brand also specialises in men's tweed and in particular, dressing grooms for their big day to complement their bride's dress. This tweed theme can be replicated throughout your wedding, from bridesmaids' dresses, best man waistcoat, through to mother of the bride hats and even traditional bunting and table decor.
